The 3 ft. unit requires 2 circuits. Total Amps for the 4, 5 & 6 ft. units includes 4.8 Amps for the condensate evaporator.

The SCRFC merchandiser is designed for use in stores where temperature and humidity do not exceed 75° F. and 55% R.H. Locate away from direct sunlight, rapid air currents and extreme temperature changes. Exposure to air currents from ceiling fans, air conditioners, ovens, etc. will disrupt the case's air curtain and refrigerated zone. Any adverse conditions will affect warranty.

RPI in line with it's policy to continually improve it's product reserves the right to change materials and specifications without notice.
